

CAPABILITIES STATEMENT

Providing our customers with assurance and confidence to face today's threats.

CORE COMPETENCIES

BALLISTICS MANUFACTURING

- Innovative solutions team, design, model and test ballistic-resistant protective materials
- Over sixty years combined experience in ballistics and armoring
- Ballistics manufactured to NIJ standards
- Continually researching and developing bullet-resistant raw materials to defeat current threats
- Established in 1998

PRODUCT PERFORMANCE

- Invent and produce some of the lightest weight ballistic shields in the industry
- All products developed to meet or exceed NIJ standards
- Quality, dependability and reliability
- Premium Armor panels, developed with lightweight advanced composites

VALUE

- We design and engineer custom armor solutions
- Integrity, teamwork and excellence implementation and support
- Exceptional customer service
- Focus on development of quality cost-effective armoring solutions
- Fast lead times and delivery

PAST PERFORMANCE

- Contracts with local, state and federal government agencies
- Several degrees, in business, finance and engineering
- Navy and Coast Guard utilize light weight armoring products, developed by our engineering team
- Aviation industry implements many of our light weight custom kits
- "Preferred" supplier of L-3 Communications Joint Operations Group (JOG), with weighted score of 100%, based on "Quality" and "Delivery to promise date"
- R&D with University of Alabama Birmingham engineering department developing lightweight ballistic tornado shelters
- Overall Past Performance Evaluation (PPE) of 90% by Dun and Bradstreet

DIFFERENTIATORS, CONTRACT VEHICLES & CERTIFICATIONS

Notable Federal Contract Awards

- Defense and Financial Accounting Services (DFAS) Blanket Purchase Agreement
- US NAVY Contract Awardee: Maryland Procurement Office

Other Contract Vehicles

- Women Owned Small Business (WOSB)
- DD Form 2345 Certified
- DOD EMALL
- Certified NIJ Standards in levels IIA, IIIA, III, and IV by NTS

- GSA Schedule 084 Contract #: GS07F062DA
- Product Development Process appraised as Maturity Level 3
- Quality Control Protocol

NAICS CODES/OTHER PERTINENT CODES

DUNS #: 025317400

CAGE #: 1NDR8

- 326130 Laminated polyethylene manufacturing
- 336413 Aircraft auxiliary parts manufacturing
- 336992 Armored military vehicles and parts manufacturing
- 331110 Armor plate made in iron and steel mills manufacturing

- 336999 All-terrain vehicles wheeled or tracked manufacturing
- 541330 Engineering consulting services
- 541611 Strategic planning consulting services
- 313320 Laminating purchased textiles
- 336611 Naval ship building
