COMPACT HANDGUN PROTECTION FOR INITIAL RESPONSE

A compact viewport-equipped shield for officers arriving first to active threats, emergency calls and rescue operations. Its 17-by-29-inch profile provides maneuverable handgun-rated protection with clear forward visibility in corridors, doorways and confined interiors.

HANDHELD CONTROL SYSTEM

A fixed triangular handle, high-density foam forearm pad and operator-releasable retention strap provide secure handheld control. The hook-and-loop strap anchor permits deliberate release if shield control is compromised.

CONFIGURATION

STANDARD

BLACK OR OD GREEN
FIXED TRIANGULAR HANDLE
FOREARM PAD
OPERATOR-RELEASABLE STRAP

AVAILABLE OPTIONS

1000+ LUMEN LIGHT
CARRY BAG

MADE IN THE USA | SINCE 1998 | 10-YEAR LIMITED WARRANTY
